Sun Tap
Water Products

**One System. Twice the
Performance.**

**Why buy two units when the Hybrid
does it all?**

**With two tanks and one powerful
control valve, it removes chlorine, and
VOCs and eliminates hardness, scale, and
lime build—all in one compact system.**

5 Button Control Valve

**The advanced Water Specialist
Control Valve with double
backwash and pre-brine refill
ensures cleaner, more efficient
operation—whether you use
salt or potassium.**

**Smarter. Cleaner. More
Efficient. That's the Hybrid
advantage.**

Coconut Shell Carbon

**Removes or reduces Chlorine,
Herbicides, Pesticides, Cleaning by-
products and Trihalome-thane.**

**Coconut Shell Carbon is one of the most
porous substances on earth and is
perfect for water treatment.**

10% Resin

**Lasts Longer: Up to 50% longer life than
standard resin.**

**Chlorine Resistant: Stands up to chlorine in
city water.**

**Tough on Hard Water: Handles higher
hardness and iron with ease.**

**Stronger Beads: Resists cracking and
swelling for consistent performance. Saves
Money: Fewer replacements mean lower
long-term costs.**

**10% Resin = Longer Life. Better Protection.
Superior Softening.**

The Hybrid

<u>Part Number</u>	<u>Description</u>
--------------------	--------------------

GF-1025-ST-AL	Hybrid 1.25 Cu. Ft. (Almond)
---------------	------------------------------

GF-1025-ST-PL	Hybrid 1.25 Cu. Ft. (Platinum)
---------------	--------------------------------

Softeners

Sun Tap Water Softeners
